

THE TRUTH ABOUT UKIP

WHAT DOES NIGEL FARAGE REALLY STAND FOR?

OUR NHS - SAFE WITH UKIP?

Nigel Farage was filmed in 2012 making a speech advocating a US-style insurance scheme run by private businesses to replace the National Health Service.

Tory defector Mark Reckless, the new UKIP MP for Rochester and Strood, voted 18 times in support of the Tory Health and Social Care Act which aims to privatise large chunks of our NHS. If UKIP are against NHS privatisation, why did Farage welcome him in?

UKIP MEP and deputy leader Paul Nuttall said on his website *"I would like to congratulate the coalition government for bringing a whiff of privatisation into the beleaguered National Health Service"*.

A PARTY FOR WORKING PEOPLE?

UKIP wants to scrap our rights at work, removing the legal limit on how long we are made to work and cutting redundancy pay, sick pay and maternity pay. They would replace permanent jobs with more short-term and zero-hour contracts.

All these policies benefit businesses and the rich, not ordinary working people.

TAX THE RICH?

UKIP wants to 'simplify' the tax system by making everyone pay 33%. So a low-paid cleaner would pay the same rate of tax as a millionaire, unless the millionaire evades it of course. The Daily Mirror exposed Nigel Farage for setting up a trust fund in an offshore tax haven in a bid to save thousands of pounds in tax.

Tax dodging costs Britain £35bn a year, according to HM Revenue and Customs, but Tax Research experts say it is as much as £123bn. This is money that could be spent on our schools and hospitals.

EDUCATION FOR ALL?

UKIP want to return to the Grammar school system, and plan to divert money from state schools to private education. This will mean that the vast majority of children will be educated in underfunded schools with less resources. How will this help our young people to compete in a highly competitive job market?

RACIST?

UKIP are cynically blaming immigrants for the current economic crisis, but they know that it was the bailout of the bankers in 2008 that led to the savage austerity, low wages and high prices faced by ordinary people today.

UKIP tell us that immigrants reduce wages, steal jobs from 'native' workers and are a burden on our hospitals and schools. This is a lie - a recent report by University College London found that European migrants to the UK are not a drain on Britain's finances and contributed £20bn to the UK economy between 2010 and 2011 - £15bn more than they received in benefits.

ANTI-ESTABLISHMENT?

UKIP claims to be on the side of ordinary people against the establishment. In fact its leader, Nigel Farage, is as establishment as they come. The son of a stockbroker in the City of London, Farage was educated at public school and went on to be a commodities broker.

He has strong links with bosses and millionaires who can see that, for all the rhetoric, UKIP stands firmly on the side of the rich. It backs privatisation of public services such as the NHS, lower taxes for bosses and wants to see more cuts than the Tories.

He called for a statue of the hated Margaret Thatcher to be built outside parliament after her death in 2013 – Thatcher laid waste to mining communities up and down the country.
